Harrison Greener

Designer · Brand, web, apps and print

I design brands, websites and apps, then I build them myself. I'm a third-year Digital Media & Communications student at Manchester Met and a freelance web designer, with a background in digital marketing. I like ideas you can hold: my CV is also a leather wallet and a 3D website.

SELECTED WORK

Stack
APP · BRAND · PITCH

A record-collector app where owning the vinyl unlocks it everywhere. Full brand, robot mascot and a 3D film in the browser.

Quotable
WEB APP · LAUNCHED

AI quoting, invoicing and tax for tradespeople. A launched product, run as my own limited company.

Big Brother Inc.
AI EXPERIMENT · PIXEL ART

A company of local AI models run like Orwell's 1984. Hand-made pixel building and a minigame.

The Wallet CV
PRINT · 3D WEB

This CV, as a real wallet: a designer licence, receipt CV, scratchcard and project cards, plus its 3D twin.
